

Bognor Regis Regeneration Position Statement

Project/Opportunity	Update June 2019
<p>1. Enterprise Bognor Regis Enterprise Bognor Regis (EBR) comprises a series of commercial/industrial sites co-located north of Bognor Regis straddling the A29. The aim is to make the sites ready and attractive for early development to accelerate business and employment growth, and many pre-planning studies were undertaken which has hastened development. There is limited greenfield commercial land available on this scale within Coastal West Sussex area.</p>	<p>The site is allocated as a strategic employment site in the adopted Local Plan.</p> <p>Landowners of EBR sites are reporting good occupier interest.</p> <p>Oldlands Farm site - Hanbury has been granted change of use of their new proposed development from industrial to retail to allow a Lidl and The Range store.</p> <p>Rolls Royce has completed Phase 2 of their warehouse and also has a temporary facility to accommodate sales growth of their new “Cullinan” model.</p> <p>Saltbox site – A second hybrid planning application (BE/135/18/PL) was submitted to develop the site in two phases for employment and commercial uses.</p> <p>The proposed development would deliver £33.7 m of capital investment; provide approximately 30,520 square metres of new mixed use floor-space and between 500 and 1000 new private sector jobs.</p> <p>Full permission was sought for land to the rear of the site where Warburtons has a requirement for a Class B8 warehouse for the storage and distribution of bread products and offices. The application also includes two drive-thrus; industrial buildings; an ALDI food store and car showrooms for the Richmond Motor Group. The full planning application also includes the provision of the site’s infrastructure comprising access roads and a new entrance from Shripney Road, on-site open space provision, landscaping, drainage works and attenuation ponds. Outline permission was also sought for the remainder of the site. The outline scheme provides for a flexible delivery of employment space primarily in the form of two warehouses with associated car parking provision and landscaping.</p>

	<p>The planning decision was deferred (June meeting) to allow further information to be provided regarding flood mitigation and drainage issues.</p> <p>The Business case for the delivery of a £7m WSCC funded Enterprise Centre on one of the sites at EBR is being developed by WSCC.</p>
<p>2. Gardens by the Sea The Council owns two key regeneration sites at the Regis Centre and Hothamton car park and is seeking to develop them to obtain the maximum regeneration benefit for the town.</p>	<p>Awaiting further instructions from Cabinet.</p>
<p>3. Town Centre Initiatives A vibrant and appealing town centre offer of shops, public realm and events is a key draw for both residents and visitors. A Business Improvement District (BID) is in place from April 2018 for 5 years. Work is delivered in partnership with BID Manager, BID Board and Bognor Regis Town Council.</p>	<p>The BID Board has worked with Community Safety and the Police to reduce the impact of rough sleeping and street drinking in the town centre. The BID Board has recently appointed their existing officer Heather Allen as the full time BID Co-ordinator.</p> <p>The Arcade is trading at close to full occupancy of the ground floor, with the vacant units in York Road attracting good commercial interest. Consideration is being given to future uses for the Arcade's upper storeys.</p> <p>An Expression of Interest to the Future High Streets Fund was submitted in March and a decision on whether the town is invited to develop a full Business Case/bid for c £5-7m bid is expected in summer 2019.</p>
<p>4. Seafront Regeneration The Seafront Strategy was adopted in 2009 and set out plans to enhance the area. The Seafront Delivery Plan for the central section of the seafront was approved in 2016, with thematic zones and a strategic template for delivery of regeneration initiatives.</p>	<p>The new accessible public toilets remain closed because of a legal dispute regarding unresolved issues of building finishes quality. Temporary toilets are in place for beach visitors.</p> <p>Designs are being drawn up for the new café east of the bandstand. The Council was awarded £50k from Coastal Revival Fund for heritage reinstatement works to the bandstand which will be programmed later in 2019.</p>

<p>5. University of Chichester The University has a campus in both Chichester and Bognor Regis, with strong links with the wider regeneration of Bognor Regis. It has ambitious plans for campus expansion and doubling student numbers, and provides facilities for businesses such as hot-desking, meeting space and incubator units.</p>	<p>The Tech Park was formally opened by Prince Harry and Meghan in Sept 2018. The University submitted a planning application for 176 bed on-campus student accommodation which was approved at the June DC Committee.</p> <p>There is another application for 104 bed student accommodation above Wilkinsons store in London Road which was also approved at the June DC Committee.</p> <p>The London Road lorry and coach park has been marketed for student accommodation with good commercial interest. Public car parking will be retained.</p>
<p>6. Butlin's Butlin's has transformed much of their accommodation from chalets into modern hotels. This has changed the type of customer coming to Butlin's, and also what they want to do on holiday. Butlin's is an active partner in the wider town regeneration</p>	<p>The new £35m Splash Pool opened ahead of Easter 2019. It is receiving excellent visitor reviews and has improved guest satisfaction ratings with the resort.</p> <p>Offsite staff accommodation in Ashley House and St Joseph's are now fully open and popular with staff which is boosting retention and local businesses that are benefiting from increased trade.</p>
<p>7. Old Town and Pier The Old Town area around Norfolk Street and Waterloo Square is on the up. Privately funded development will bring new good quality cafes/restaurants. Promotional activity will draw vibrancy and different footfall to this area of the town. The Pier Trust is spearheading plans to safeguard and improve the pier</p>	<p>2-4 Waterloo Square has been demolished due to structural instability. Hoardings and fencing are in place to secure the site. A new Amusement Arcade has opened in the previously closed building, and the award-winning Pinks Vintage Ice Cream are now open on the ground floor of 18 Waterloo Square with two new ADC temporary housing flats above.</p> <p>The Pier Trust is working with the Town Council to define and promote a series of Heritage Trails across the town.</p>
<p>8. Railway Station The Station occupies a key gateway position in the town. It is a listed building, was in very poor repair with vacant commercial opportunities, and is an identified site for improvement</p>	<p>Planning approval for the "The Track" creative digital hub / shared workspace in the station has been granted, and construction work should start soon. The hub operator, Town Square, is maintaining regular contact with the stakeholder group, and it is scheduled to open in 2019. Network Rail plan to clean, repair and refurbish the glazed roof to the concourse in the near future.</p>

<p>9. Transport and Car Parking Transport is a key element of development within the town as is car parking, and it is essential to ensure co-ordination with, and consideration of these issues as part of the development process. Strategically, proposed future improvements to the A27 at Chichester, Arundel and Worthing, and A29 as part of the Barnham-Eastergate-Westergate housing plans (included in the Local Plan) will significantly enhance the viability of development land in and around the town.</p>	<p>Traffic survey evidence has been gathered about the impact on the local traffic network of event closures of the Esplanade near Regis Centre. This is to assess the feasibility of possible future changes to traffic flows. More traffic surveys over a longer road closure period are required to conclude this work, and it is proposed that a new partnership “Esplanade Event” using the road closure is planned for the 2 weeks of summer and when funding and resource become available.</p> <p>A 2 hour free parking agreement for 2019 has been agreed between BID and Arun DC, and over 20,000 discs have been sold.</p> <p>Proposals to make the railway station junction more pedestrian friendly have been agreed in principle with WSCC and JWACC. County officers are investigating feasibility, funding etc to develop the project further.</p> <p>Fitzleet multi-storey car park is suffering from rough sleeping/street drinking problems. Relevant agencies are working together to tackle this.</p>
<p>10. Placebranding and Promotion Bognor Regis is particularly hampered by negative perceptions of the town. The place-branding initiative led by Hemingway Design will set out to change the narrative and promote the town as a modern, forward-thinking investment destination.</p>	<p>HemingwayDesign working in partnership with Arun DC, West Sussex CC and University of Chichester has been analysing the public survey data and collating findings. This data will directly influence their future action recommendations. These results will come to a future Sub Committee meeting.</p> <p>The “Invest in Bognor Regis” website was launched nationally this spring. https://www.bognorregisregeneration.com/</p>
<p>11. Gigabit West Sussex This is a WSCC project and aims to extend the delivery of ultrafast fibre networks in some public buildings in towns across the county.</p>	<p>The Gigabit West Sussex project (funded by the Department for Digital, Culture, Media and Sport) and led by WSCC to install superfast gigabit fibre broadband, is progressing well. Specific public buildings in Bognor Regis will receive the first phase of installation within the district in early 2019, and installations have started. Arun is working with WSCC and their delivery partners to ensure all relevant site information is provide on time, permissions are in place and the public and staff are kept informed of this work.</p>

	<p>WSCC have successfully bid to Government to become a pilot area for the new 75% business rate growth retention scheme.</p> <p>This will be used to deliver 'Phase 2' of improving the county's fibre network and connecting up towns in the county. The County wide officers working group 'Everything Connects' is meeting regularly to develop the project programme.</p>
<p>12. Wider Economic Strategy/Policy Regional and sub-regional strategy and policy impacts both activity and funding streams for economic development within Arun</p>	<p>The Arun Economic Development Strategy is currently being reviewed and updated, and a report will come to a future Sub Committee meeting. Stakeholder workshops were held on 28 March and 17 May that presented the Evidence Base for the strategy. The feedback from these two events will assist with determining the themes and priorities of the new strategy document. A presentation to all ADC Members has been arranged for the 26th June.</p> <p>The Arun Growth Deal was signed in 2018. This is a joint commitment between ADC and WSCC to align resources to deliver economic growth and unlock opportunities for new homes, infrastructure, employment floor space and rejuvenated town centres. Officers, County and District Council Cabinet Members meet regularly to monitor project progress.</p> <p>The West Sussex Economic Strategy and Coast to Capital (C2C) Local Enterprise Partnership (LEP) Strategic Economic Plan (SEP) were launching 2018. The LEP is currently drawing up a Local Industrial Strategy which is likely to determine future government funding priorities locally.</p> <p>The Coastal West Sussex Partnership Board has a new Chairman and several new business members.</p> <p>Arun District Council has been invited to join the Greater Brighton Economic Board. The Greater Brighton Economic Board (GBEB) currently comprises the local authorities of Adur, Brighton & Hove, Crawley, Lewes, Mid Sussex and Worthing. The overarching aim of the Board is to protect and grow the economy, by co-ordinating economic development activities and investment at City</p>

	Region level. Arun's application to become a member will be considered at Full Council in July. If approved, our application will be then be considered by the GBEB in October 2019.
