

Dear

Thanks for this. Apologies for our delay in getting back to you.

Having shared it with Councillors the views were either a car park specific permit (that only applies to this car park) OR a lease specific car parking spaces providing a guaranteed space for the driver.

The point that was also raised around River Road Car Park was to ensure that this car park is considered as an EV charging location alongside river road garages.

Councillors did also raise the concern around the proposed charges for this car park permit or leasing. Currently annual permits in the Bognor Regis CPZ and Littlehampton are £200, Fitzfleet multi-story in Bognor Regis are £150, and yet Fitzalan Pool car park are charges £318 from ADC alone, plus £150 from the Lido!

Thanks
