⊗ 8. Housing	79,522
⊗ 9. Planning	182,570

1. This is representative of the total hits our website had per service per year.
2. The surge in Cleansing hits is believed to be due to changes to Christmas collection starting in the 17/18 financial year with many checking the website to confirm their new collection day. The further increase is also most likely attributed to disruptions to the service during the Coronavirus lockdown in the 2020/2021 year.
3. As shown Planning continues to have the highest number of website hits, this is primarily down to planning applications and the open availability of documents and plans. Planning pages have all seen a significant decrease during the 2020/2021 year due to the disruption and suspension of several Planning services created by the ongoing pandemic. The total Planning figures for 2020/2021 are around half of those recorded during the 2018/2019 year.
4. Views to our Council Tax pages have doubled between the 2019/2020 and 2020/2021 years. The sharp increase is most likely due to customers seeking information and support regarding the numerous grants Arun District Council has provided during the lockdown (Such as Business Grants, Self-Isolation Payments etc.) as well as customers providing information about furlough arrangements and payment issues.
