

Unpublished incomplete draft

Horsham Duty to Cooperate: Statement of Common Ground Part A

Horsham District Local Plan 2038: Regulation 19

Dates of issue: xx.xx.2022

1. Introduction, Scope and list of parties involved

1.1 This statement sets out the context of Duty to Cooperate¹ activities at a sub-regional level involving Horsham District Council (HDC). In particular, it explains these key sub-regional joint activities:

- i. The joint working activities of the North West Sussex Housing Market Area (NWS-HMA)
- ii. The work being progressed by the West Sussex and Greater Brighton Strategic Planning Board to agree a joint Local Strategic Statement 3 (LSS3)
- iii. The joint working activities of the Gatwick Diamond Growth Area.

1.2 The parties to this Statement of Common Ground Part A are:

Local Authorities:

- West Sussex County Council
- Adur District Council
- Arun District Council
- Brighton & Hove City Council
- Chichester District Council
- Crawley Borough Council
- Mid Sussex District Council
- Mole Valley District Council
- Reigate & Banstead Borough Council
- South Downs National Park Authority
- Waverley District Council
- Worthing Borough Council

National agencies:

- Sussex Local Nature Partnership
- Environment Agency
- Historic England
- Natural England
- Sports England
- Network Rail

¹ The Duty to Cooperate in plan-making terms is defined in the NPPF paragraphs 24-27 and further explained in national Planning Practice Guidance (PPG) in the section 'Plan-making', subsection 'Maintaining Effective Cooperation'. PPG also sets out guidance on preparing a Statement of Common Ground.

1.3 This Part A statement has been prepared alongside preparation of the Horsham District Local Plan for the period to 2038, and is supplemented with a series of Part B statements which set out specific cross-boundary issues more appropriately dealt with on a bi-lateral or tri-lateral basis. Part A and the relevant Part B should be read in conjunction.

2. Signatories

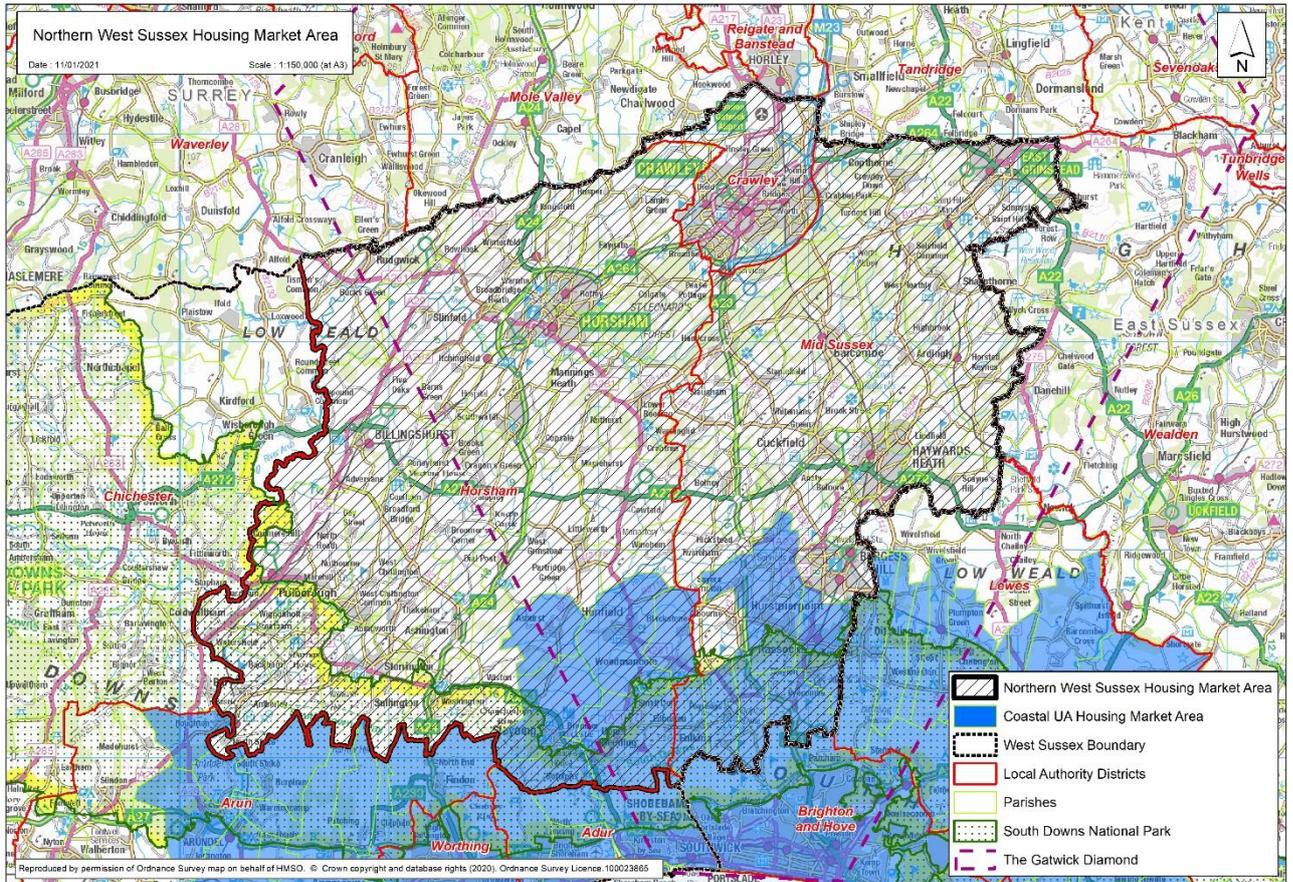

2.1 See Parts B for the respective signatories to this statement.

Statement

3. Strategic Geography

- 3.1 Horsham District is located in West Sussex, within the South East of England. The district covers an area of 530km² (205 square miles) and is predominantly rural in character, containing a number of smaller villages and towns. The largest urban area is the market town of Horsham, situated in the north-east of the District.
- 3.2 95km² (36.49 square miles) of the District falls within the South Downs National Park. Although Horsham District Council is not the planning authority for this area, this nationally important landscape provides an important landscape context for locations across the district.
- 3.3 The District lies within the area covered by the Coast to Capital Local Enterprise Partnership. This is a network of functional economic hubs, with Gatwick Airport (in the north of the area) and Brighton and Hove (in the south of the area) identified as key drivers of economic activity in the area. The area boasts a strong economy worth £50.7 billion gross value added (GVA), making it the seventh largest local economy in England.
- 3.4 The majority of Horsham District is also located within the Gatwick Diamond economic area. This extends from Croydon in the north, around Gatwick Airport and down the A23 corridor to the south coast.
- 3.5 The whole of the District also falls within the North West Sussex Housing Market Area (NWS-HMA), together with Crawley Borough Council and Mid Sussex District Council.
- 3.6 A modest southern portion of the District also falls within the Coastal West Sussex and Greater Brighton Housing Market Area (CWS-HMA). Whilst this identified HMA only includes a small part of Horsham district, it nevertheless has significant implications on future cross-boundary planning. This is because many of the local planning authority areas within the CWS-HMA are tightly constrained built-up areas, meaning that not all development needs identified within those areas can be met within their administrative boundaries.

Figure 1: Key spatial parameters for Duty to Cooperate activities

4. Strategic matters and how these are being addressed at the sub-regional level

4.1 Strategic matters relevant to the wider area are wide-ranging. The key matters are:

- i. Employment and economic strategy
- ii. Housing need
- iii. Strategic infrastructure
- iv. Green infrastructure and biodiversity

4.2 There is significant crossover between these matters, and various mechanisms for addressing them. As such, the following paragraphs outline the main mechanisms and ongoing activities that seek to address cross-boundary strategic issues, together with the lead organisations who are active partners within them.

4.3 All parties agree that a further key matter is addressing climate change, and in particular decarbonising our communities. This is a cross-cutting theme that runs through other key matters, and will also be picked up in more detail through existing joint work and groupings including those set out below.

A. Northern West Sussex Housing Market Area (NWS-HMA)

4.4 The lead partners in the NWS-HMA are:

- Horsham District Council (HDC)
- Mid Sussex District Council (MSDC)
- Crawley Borough Council (CBC)
- West Sussex County Council (WSCC)

4.5 These Councils are located within the county of West Sussex. Studies undertaken since 2009 have consistently confirmed the three district/borough authority areas form a close Housing Market Area (Northern West Sussex “NWS”) and are part of wider Economic Functional Areas (Gatwick Diamond centred on Crawley/Gatwick Airport, and to the south of the Districts: Greater Brighton). The NWS authorities form part of the ‘Coast to Capital’ Local Enterprise Partnership, which stretches from Chichester in the south west, along the coast to Brighton and Newhaven and Seaford through Mid Sussex and Crawley to Croydon on the outskirts of London.

4.6 The key activities and outputs from this grouping covering the NWS area are as follows:

- a. The *Economic Growth Assessment (EGA)* provides a common evidence base which quantifies the strategic need for the area as a whole and each authority area within it. It also provides an expert steer as to the types of employment growth that will meet the shared economic objectives of the area, and relates this to spatial dynamics including transport and infrastructure networks. It was initially started in 2009. There have been various updates the latest being in January 2020.
- b. The *Strategic Housing Market Assessment (SHMA)* provides a common evidence base on the levels and types of housing need within the HMA. It uses the current Government guidance to calculating overall ‘local housing need’ using the standard methodology for the respective authority areas. It also estimates the quantum and types of need for particular dwelling sizes, affordable housing, older persons housing, and housing for those with disabilities. The latest SHMA is dated November 2019.
- c. A *Gatwick Sub-Region Water Cycle Study (WCS)* provides a common evidence base the potential issues relating to future development within the Gatwick Sub-Region and the impacts on water supply, wastewater collection and treatment and water quality. As well as covering the NWS area, it additionally covers Reigate and Banstead Borough to the north of Crawley. The latest WCS is dated August 2020. A supplement to the Water Cycle Study, to deal specifically with water neutrality and impacts on the Arun Valley SAC/SPA, has recently been commissioned. A brief for this has been jointly agreed by HDC, CBC and Chichester District Council.

4.7 The authorities share methodologies and emerging evidence to ensure consistency and compatibility throughout the area, even if studies are being produced separately. These include: Strategic Housing Land Availability Assessments, transport modelling to support plan-making, and Gypsy and Traveller Accommodation Needs Assessments. The activities of the NWS group of authorities is documented in more detail in the Northern West Sussex Statement of Common Ground dated May 2020.

4.8 Details of how unmet development needs are being addressed in the NWS-HMA are set out in the relevant Part B sections of this statement.

B. West Sussex and Greater Brighton Strategic Planning Board

4.9 The West Sussex and Greater Brighton Strategic Planning Board (WS&GB) consists of the following partners:

- Adur District Council
- Arun District Council
- Brighton & Hove City Council
- Chichester District Council
- Crawley Borough Council
- Horsham District Council
- Lewes District Council
- Mid Sussex District Council
- Worthing Borough Council
- South Downs National Park Authority
- West Sussex County Council

4.10 WS&GB consist of lead Council Members, supported by senior officers. Its remit is to:

- a. Identify and manage spatial planning issues that impact on more than one local planning area within WS&GB, and
- b. Support better integration and alignment of strategic spatial and investment priorities in WS&GB, ensuring that there is a clear and defined route through the statutory local planning process.

4.11 The updated Local Strategic Statement for Coastal West Sussex and Greater Brighton ('LSS2') was agreed by all partners in 2015, and is the main vehicle for taking forward the Board's work on behalf of the LPAs. This sets out the long term Strategic Objectives and the Spatial Priorities for delivering these in the short to medium term. These priorities reflect the local planning authorities' clear aspirations for long term sustainable growth to meet the existing and future needs of the residents and workforce in the area. It provides an overlay for local plans and business plans of various bodies; establishes a clear set of priorities for funding opportunities and will also be used for duty to co-operate purposes. The updated Strategic Objectives in LSS2 cover the period 2015 to 2031 and the Spatial Priorities cover the period 2015-2025.

4.12 Despite having LSS2 in place, all partners have recognised that a full review of LSS2 will be required to address longer term issues. In particular, the third version of the Statement (LSS3) will need to robustly address the continuing gap between objectively assessed housing needs and housing delivery in the sub-region and the continuing challenges around supporting sustainable economic growth and infrastructure investment. To inform the preparation of LSS3 the following joint study has been completed:

Defining the HMA and FEMA (GL Hearne, 2017) provides a detailed review of the Housing Market Areas (HMAs) and Functional Economic Market Areas (FEMAs) operating within and across the Strategic Planning Board authorities. The boundaries of these respective areas are shown in **Figure 1**. As a comprehensive analysis of the functional geography of the sub-region, it provides a sound basis for undertaking future housing and economic needs assessments within the area covered.

4.13 An updated Statement of Common Ground is being prepared. This is likely to document the extent of unmet housing need to reflect a commonly agreed position. All WS&GB partners have committed to undertaking the following:

- a. Robustly and creatively explore options for meeting the unmet needs across the Board area, starting by leaving 'no stone unturned' within the respective administrative boundary for the period up to 2030 and for these options to inform local plan reviews;
- b. Prepare a Local Strategic Statement 3 covering the period 2030 to 2050 with an appropriate level of stakeholder participation to ensure that all those with an interest in LSS3 have an opportunity to engage in the development of the strategy;
- c. Commission work to provide an evidence base for the preparation of a Local Strategic Statement 3 which covers the following:
 - A baseline of current growth proposals and an understanding of any shortfall in housing, employment and infrastructure provision;
 - A common methodology for determining the 'no stone unturned' approach to identifying possible locations to meet any unmet need;
 - The capacity of the Board area to absorb further growth in this period;
 - The likely required level of growth between 2030 and 2050;
 - The strategic options available to deliver additional growth;
 - The investment necessary (in infrastructure) to ensure the successful delivery of appropriate growth.

C. Gatwick Diamond authorities

4.14 The Gatwick Diamond is a diamond-shaped area, with Gatwick Airport at its heart, running between London and Brighton, and extending to Horsham in the west and East Grinstead to the east. As the world's busiest single runway airport, Gatwick Airport has a significant on the economy and prosperity of the authorities within the Diamond.

4.15 The Gatwick Diamond (GD) Authorities is a partnership of local authorities working together to coordinate on strategic planning and development issues affecting the Gatwick Diamond. The GD authorities are:

- | | |
|-----------------------------------|--|
| • Surrey County Council | • Mid Sussex District Council |
| • West Sussex County Council | • Mole Valley District Council |
| • Crawley Borough Council | • Reigate and Banstead Borough Council |
| • Epsom and Ewell Borough Council | • Tandridge District Council |
| • Horsham District Council | |

4.16 The GD authorities have recognised the need to coordinate on strategic planning issues, in order to promote the continued prosperity of the Gatwick Diamond and plan for its future growth. They have worked on and signed up to a Gatwick Diamond Memorandum of Understanding (published March 2012) which was accompanied by a Gatwick Diamond Local Strategic Statement (GD-LSS). The GD-LSS was reviewed and updated in 2016.

4.17 The GD-LSS continues to form the basis for inter-authority cooperation on strategic issues relevant to this area, identifying priority themes for joint working, so that decisions made through the plan making processes are fully informed.

D. Coordination of green infrastructure and natural capital assets

4.18 There is common recognition amongst public bodies in the West Sussex and Surrey areas and wider that successful enhancement of natural capital requires a cross-boundary approach. The following joint working mechanisms are used across the sub-region to achieve this coordination:

- a. *Sussex Local Nature Partnership (LNP)*: This group was formed in 2014 and brings together around 25 organisations in Sussex. Its objectives are to conserve, enhance and expand Sussex's Natural Capital, and ensure that Sussex residents share in the benefits provided by healthy, well-functioning ecosystems. West Sussex County Council is a partner. In December 2019, the Sussex LNP published a Natural Capital Investment Strategy for Sussex. HDC will have regard to this strategy (and future updates) within its strategy, with particular regard to its reference to: *"The LNP investment strategy provides the strategic and spatial information needed to properly inform local decisions that influence natural capital assets."*
- b. *Wilder Horsham (WH)*: WH is a five-year partnership between Sussex Wildlife Trust (SWT) and HDC, which was formally agreed by HDC Cabinet on 28 November 2019². It will link with the work of the Sussex Local Nature Partnership, recognising that the Natural Capital Investment Strategy for Sussex provides a shared framework for nature's recovery in Sussex. Agreed actions under 'Organisational resilience' include to *"draw on the expertise of the Sussex Wildlife Trust to make further improvements and enhance the presence of the Trust throughout the District"* and to work with SWT to *"embed the principles of the Wilder Horsham District programme into all parts of the organisation... For example, the Trust will run training events for staff and help the council develop policies on biodiversity as part of the review of the Local Plan, as well as reviewing the existing Green Infrastructure Strategy (2014)."*

4.19 Further details on the outcomes of joint working on green infrastructure and natural capital may be provided in separate bilateral statements as appropriate.

5. Housing need, supply and distribution

5.1 The relationship between housing need and its supply and distribution within relevant HMAs is complex. This is being considered in light of recent confirmation of how 'local housing need' for districts, boroughs and unitary authorities should be calculated, and will be addressed both through respective local plan processes, and through ongoing strategic groupings as described above. This section of this statement will be updated when these matters have been clarified.

6. Closing matters and further work

² The Report to Cabinet and minutes of meeting can be found at <https://horsham.moderngov.co.uk/ieListDocuments.aspx?Cid=132&Mid=1486&Ver=4>

- 6.1 This statement demonstrates that there is a shared commitment between local authority partners in the subregion to work jointly and constructively on relevant cross-boundary matters at a sub-regional level. The parties confirm that they will continue to do so, as outlined above and through sustained joint dialogue and the commissioning of joint studies as appropriate.
- 6.2 Part B of this statement sets out specific cross-boundary issues more appropriately dealt with on a bi-lateral or tri-lateral basis.
- 6.3 At the time of preparation, the international community is experiencing a worldwide pandemic of Coronavirus (Covid-19). This situation is widely acknowledged to have yielded very significant uncertainties and risks in strategy-making for the medium and long term, including in plan-making. The parties agree that this will necessitate a flexible approach to addressing cross-boundary matters covered in parts A and B of this statement, for example due to likely (yet unknown) impacts on the economy at all levels, and on the housing market.
- 6.4 Also at the time of preparation, the UK Government is consulting on radical and fundamental changes to the English planning system. However transition arrangements are proposed which would allow local plans at an advance state of preparation to continue being prepared in accordance with current legislation and guidance. The parties are therefore agreed that the Horsham District Local Plan should continue to be prepared in accordance with current legislation and guidance, including using existing practice guidance on calculating the standard methodology local housing need as published on 16 December 2020 (Planning Practice Guidance paragraph: 006 Reference ID: 2a-004-20201216).
